Founded in 1935, the Graphic Communications Education Association (GCEA) is a non-profit organization of educators in partnership with industry, dedicated to sharing theories, principles, techniques and processes related to graphic communications and imaging technology.

Among the activities sponsored by GCEA are an annual conference, a comprehensive publication program, industry liaison programs, and resource networks.

GCEA fosters career awareness by promoting Graphic Communications Week, assisting Boy and Girl Scouts with their merit badges and interest projects and recognizing success through Gutenberg Student Awards.

Membership in GCEA will provide you with a wealth of resources, information, and professional contacts. In joining GCEA, you will become a valued member of an association dedicated to serving the needs and interests of graphic communications education.

Whether you are an educator, industry representative, student, or just have an interest in any of the areas of graphic communications and imaging technology education, GCEA offers lifelong opportunities for professional involvement.

## GCEA CONFERENCES

The annual GCEA Conference is four or five days of education, fellowship and fun normally held on a college campus during the summer. The program is a lively mix of technical and professional presentations, hands-on demonstrations and workshops, social activities, and informal gatherings to discuss issues related to graphic communications and imaging technology education.

A unique feature of all GCEA conferences is a complete program of activities for the participants and spouses/guests. Most conferences provide college credit for attendees who wish to earn credit during the week. First-time attendees are encouraged to apply for a grant to attend their first conference.
